

Call for Papers 10th Annual Working Conference on IFIP WG 11.1 Information Security Management

Centre de Congres Pierre Baudis
23-26 August 2004, Toulouse, France

Integrated into

*** SEC2004 ***

19th IFIP International Information Security Conference
<http://www.sec2004.org>

GENERAL INFORMATION

With the development of more complex networking systems and the rapid transition to the e-world, information security has become an extremely large concern for many individuals and organizations.

Advanced safeguards are required to protect the information assets of not only large but also small and distributed enterprises. New approaches to information security management, such as policies and certifications, are now being required. The security of strategic corporate information has become the foremost concern of many organizations, and in order to assure this security, methods and techniques must be conceptualized for small enterprises both from a functional and technical viewpoint.

IFIP TC-11 Working Groups 11.1 (Information Security Management) hereby invite you to contribute to the next Working Conference by submitting a paper for presentation. Contributions can either be of practical nature (industry) or reports on academic activities.

Papers dealing with the following topics, but not limited to, are solicited:

- Security Risk Analysis
- Critical Infrastructure Protection
- Baseline Security Standards
- E-Commerce security
- Smart Cards
- Secure small distribution applications
- Security of intelligent tokens
- Methodologies for securing small to medium size enterprises
- Management issues relating to critical infrastructure protection
- Methodologies and techniques for certification and accreditation
- Evaluation of Information Security in companies and information security surveys
- International standards for Information Security Management

INSTRUCTIONS TO AUTHORS

Authors are requested to submit original work, not previously published, on any of the above or other related topics. or conference for consideration of publication. Papers must be written in English; they should be at most 16 pages long in total, including bibliography and well-marked appendices. The paper should be intelligible without its appendices. Accepted papers will be presented at the conference and published in the *SEC2004* conference proceedings, by Kluwer Academic Publishers. Every paper submitted will be refereed in accordance with established international conference guidelines.
